DIAS Technology Review - The International Journal for Business and IT

MANUSCRIPT GUIDELINES/COMMENTS:

Editorial Policy

DIAS Technology Review is a biannual international journal of business and IT. It aims to be a premier and prestigious journal for publishing original and well-researched papers in the areas of Management and Information Technology. Contribution to the existing literature and knowledge base are the basic hallmarks for accepting the papers for publishing in the *Journal*.

Authors and Reviewers, both have an important role to play in making the journal scholastic, intellectually vibrant and comprehensively informative. The authors of the research papers are expected to base, prepare and present their papers on data which is truly authentic, accurate and consistent. They are fully accountable for the information they provide. The research papers so submitted are liable to undergo blind reviews by two referees who are expected to provide their unbiased, critical, constructive and quick evaluation of such papers. The papers will be accepted for being published in the journal only when the reports of both the reviewers are favourable or papers have been redrafted, represented and resubmitted by the authors as required by the reviewers. No fee will be charged from the author for publishing his paper in the journal. The author gets one complimentary copy of the relevant edition of the journal.

The primary focus of the *Journal* will be on academicians, students and others interested in research or those interested in updating and upgrading their knowledge in the areas of Management and Information Technology.

Types of Contributions

The *Journal* accepts for publication the following:
- Research Articles
- Book Reviews
- Literature Review/ Critical Survey in a Specific Research Area
- Case Studies
- Abstracts of Doctoral Dissertations

The *Journal* will try to maintain a balance between purely research-oriented papers and those derived mainly from the experiences of practitioners involved in the different areas of Management and Information Technology. Preference will be given to application oriented research papers and theoretical papers of extreme originality and liable to lead to further research work useful from both theoretical and practical point of view.

Guidelines for Research Papers

The paper should contain the following items in the order shown below:
- A cover page showing title of the paper, author's affiliation, full address, telephone number, fax number and e-mail.
- Abstract of not more than 150 words outlining the purpose, scope and conclusions of the paper should be presented on a separate page immediately preceding the text. The abstract should explain why the readers should consider these results important.
- The text should be suitably divided under headings and sub-headings to elucidate the text to emphasize the importance of various sections. The articles should not normally exceed 6000 words/ 16

-20 pages and should be in clear and concise English. It should be typed in 12 point font on one side of A- 4 paper in double-line spacing with wide margins.
- Acknowledgement, if any must be included.
- Only those references which are actually utilized in the text should be included in the reference list. In the text, references should be cited with the surname of the author(s) along with the year of publication, all in brackets. References should be complete in all respects and alphabetically arranged.
